Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 13 October 2005 has been entered.

Claim Rejections - 35 USC § 112

Claims 1, 4-13 and 16-22 and 24-33 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In regards to claims 1, 13 and 23, the limitation "being" on lines 4 and 5 of claims 1, 13 and 23 is not understood. How is the tube being placed?

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 4-6, 13 and 16-17 and 22-33 are rejected under 35 U.S.C. 102(b) as being anticipated by Williams (US 6,276,623).

Art Unit: 3654

In regards to claims 1, 13, 22 and 23, Williams discloses a payout tube for a storage container, the payout tube 33 comprising a elongated conduit with a flexible portion placed in an interior of the container and a remaining portion 32 on the exterior of the container.

In regards to claims 4, 5, 16 and 17, Williams discloses the flexible tube can bend in the range of 1 to 120 degrees, and 5 to 90 degrees.

With respect to claims 24-33, the method described in these claims would inherently result from the use of the flexible payout duct of Williams as advanced above.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 7-12 and 18-21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Williams in view of Redford (US 5,031,982).

In regards to claims 7, 9, 11, 18 and 20, Redford discloses the flexible portion is made up of slots and corrugations. The slots are circular around the tube.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the flexible tube of Williams to include slots and corrugations as suggested by Redford, to make the tube more resilient.

Art Unit: 3654

Response to Arguments

Applicant's arguments with respect to claims 1, 4-13 and 16-33 have been considered but are moot in view of the new ground(s) of rejection. The recitation a remaining portion of the payout tube is exterior to the container necessitated the new grounds of rejection.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
